Power Solutions for Today

**Factory Assembled
MAGNATRAC®
RS1000!**

Though similar in appearance, the RS1000 is **Completely Assembled** and test run at the factory. The MD196K is an unpainted D-I-Y KIT, that gets Home-Built by the customer.

**Home-Built D-I-Y Kit
MINI-DOZER®
MD196K**

You're about to learn how an amazing Struck® Compact Crawler tractor helps you...

- Do 1,001 "impossible" jobs!
- Work faster & easier!
- Save money!
- Be far more self sufficient!

PLUS you'll learn how easy & affordable it is to get one now, with the **SPECIAL SAVINGS OFFER** that's currently in effect for a short time only!

**Congratulations! You've discovered a
Homeowner's most practical, hardest working tool!**

Dear Friend,

A Struck "Compact Crawler" is a time-saver and work-saver... a "bullet-proof," all-track powerhouse that gives you low cost "bulldozer power" to do all the big jobs around your home, farm or cottage. It's much more versatile than any other vehicle because it's built on tracks!

Simply stated: It's a **TREMENDOUS VALUE** that does 100's of tough jobs. It's a rugged work-horse with dozens of attachments & accessories, each capable of doing an endless list of man-killing jobs. Owning a Struck Compact Crawler lets you do a LOT of work in less time -- and with a minimum of effort. Hard work becomes easy... even FUN!

Homeowners! - TAKE CHARGE... do it all yourself!

- Landscape
- Make fire breaks
- Clean up shorelines
- Backhoe [RS1000 only]
- Build a fish pond
- Dig irrigation ditches
- Fill & grade a road
- Build wildlife food plots
- Transplant trees
- Cultivate a garden
- Clean barns & stalls
- Your ultimate disaster insurance and much, much more!

What's the DIFFERENCE between the **RS1000** & **MD196K**?

The RS1000 and MD196K are identical in physical size and share a majority of components... The difference is a more powerful engine in the RS1000, plus additional Heavy-Duty drive train components and hydraulic attachments.

Base Weight	700 lbs.	575 lbs.
Max. Speed	3.15 MPH	3.15 MPH
Attachment Type	Hydraulic	Manual

FAQ - Frequently Asked Questions

What's the maximum incline the MD196K or RS1000 can safely climb?

We publish a maximum of 20° grade, however both units have a very low center of gravity and do much better than wheeled tractors.

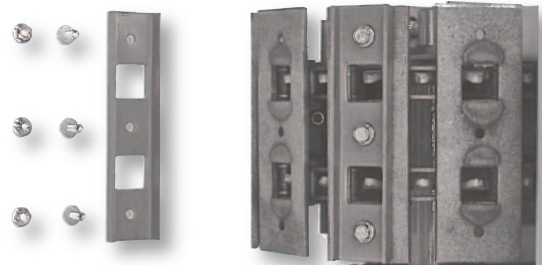

What's the best length & type of trailer for transporting a MD196K or RS1000?

Garden trailers with ramps on the back, rated at 2,500 lbs. / 12 ft long for the RS1000 and 1,500 lbs. / 7 ft. long for the MD196K are recommended.

Which Tracks are Best for Your Soil Conditions?

Steel Tracks with Grouser Shoes

Through the years, steel tracks with bolt on grouser shoes, have been our industry standard for the most traction. **Steel is best for rocky conditions.** Steel tracks will last a long time, but will be more expensive to replace, and need more consistent tensioning.

OR...

RTU19 - Rubber Track Upgrade

Our NEW "Contractor Grade" rubber tracks, give you the Power & Traction you need, but with the Velvet Touch of Rubber! **Rubber is best for all around soil, such as: sand, snow, clay & light rocks.** Rubber tracks consist of a steel core band, and forged steel metal bars inside the rubber. Rubber tracks will not last as long as steel, but will be cheaper to replace, gentle on driveways/garage floors, and less tensioning will be needed.

MAGNATRAC® RS1000

*The Homeowner Assembled Dozer**

*RS1000 shown with: PP35 Power Pack, HFH15 Hydro Front Hitch, DB44 Dozer Blade & RTU19 Rubber Track Upgrade. Not included in base RS1000 price.

**The FIRST & ONLY
Super-Compact,
Twin-Track Dozer
SIZED & PRICED
for HOMEOWNERS!**

WHY should farmers, ranchers, and contractors, have TWIN TRACK power, traction, and versatility all to themselves?

Now, for about the price of a lawn tractor or ATV that can't do much more than mow or "joy-ride," you can have a rugged little "back pocket" dozer that will make EASY work of dozens of "back-breaking" jobs! Grade a driveway, landscape a terrace, dig a small fish pond, skid logs, haul stones...and much, much more!

BREAK THROUGH FOR DO-IT-YOURSELFERS & HOMEOWNERS!

INTRODUCING our hottest, newest super-compact small frame dozer, the MAGNATRAC® RS1000. The RS1000 is a 1/3 SMALLER and 1/3 LESS MONEY than our larger MH Series MAGNATRACS and do MOST of the same jobs... they just take a bit longer.

- BULLDOZE tough ground
- BUILD a road
- LANDSCAPE your property
- ROTOTILL a garden
- MOW fields & ditches
- CARRY awkward loads
- TRANSPLANT trees
- MOVE stones & soil
- LAY pipe and cable
- PLOW deep snow
- DIG a fish pond
- HAUL heavy loads
- SKID logs
- CLEAN roadside ditches
- CLEAR brush
- AND much, much more!

Money-Making portability!

**TRUE DOZER POWER
in a Compact, Affordable Package!**

**NEW "Back Pocket" MAGNATRAC® RS1000 is the
HIGH-PERFORMANCE ALTERNATIVE
to single-function, low-traction lawn tractors!**

This isn't your Dad's lawnmower!

The RS1000 is your hard-working alternative to suburban utility tractors that can only mow lawns and push a little top-soil. For about the same price, you get a SCRAPPY DOZER that makes short work of tough homeowner jobs.

**EXCAVATING
POWER!**

Dig, move, and dump pre-ripped sod, soil & gravel with our BK44 Material Bucket. Build berms & terraces, landscape your property easily.

**#115
PACKAGE**

- RS1000 MAGNATRAC RS1000
- PP35 Power Pack Kit
- HFH15 Hydro. Front Hitch Kit
- DB44 Dozer Blade Kit
- BK44 Material Bucket Kit
- HRH35 Hydro. Rear Hitch Kit
- TR23 Three Shank Ripper Kit
- TS056 Grouser Shoe Kit

The RS1000 is about the **SAME PRICE AS A LAWN TRACTOR** that can't do much more than mow! **WHEELED** tractors bottom-out and hang up in holes, dips and rough terrain. You're **STUCK!**

FALL IN A HOLE

OR

BRIDGE THE GAP!

Rip sod & gravel to 5" deep with a TR23 Ripper!

Spring, Summer, Fall or Winter your MAGNATRAC® RS1000 is your Power Solution!

With over a 1/2 ton of running weight and 1,500 lbs. of pull on a pair of tracks that won't quit, you can make short work of moving logs and brush.

SAVE the Tough jobs for the RS1000!

- Plow mountains of heavy snow!
- Dig out tangled brush & trees!
- Rebuild driveway washouts!
- Excavate for patio and small building foundations!
- Cut water control drainage ditches!

Need to pick up a couple of hundred pounds? No problem... your RS1000, a BK44 Material Bucket and a set of BF22 Bucket Forks, makes "Back Breaking" work... EASY!

Who Owns the RS1000?

- ✓ Hands-on Homeowners
- ✓ Rural property owners
- ✓ Those who've "had it" with one function lawn tractors!

The whole family will be happy to help when utilizing the LW228 Log Crane! It makes carrying a load of top-soil a snap!

Haul full loads of soil, firewood, brush, brick, gravel and dump them right on target, with your rear mounted drawbar or log crane. Go ANY-WHERE: hills, wet areas, sand & snow!

MAGNATRAC®... built for a LIFETIME!

A MAGNATRAC® is truly a life-time purchase. With routine maintenance, it'll give you hauling, lifting, and dozing POWER on every job you tackle for the rest of your life!

Considering the amount of WORK you'll do with your MAGNATRAC®, it is an extremely affordable purchase!

Utilizing the HA14 Hitch Adapter, makes carrying your wood EASY! FREE fuel, from your own wood lot, goes a long way to cut fuel bills this winter!

MAGNATRAC® TRACKS BEAT TIRES in tough conditions!

TRACKS are blow-out proof...
Tires puncture, Tracks can't!

TRACKS give more traction...
Tires have about 1/3 the footprint!

TRACKS have more "flotation"...
Tires dig holes & can't get out!

TRACKS with grouser shoes...
beat Tires with Chains!!

MINI-DOZER® MD196K

The Hobbyist D-I-Y Dozer Kit*

Build a hard working genuine MINI-DOZER®. It's every inch a tough little Struck Crawler with plenty of power for its' size... and you "Built It Yourself & SAVE"!

Dave and his daughter, Melanie, 13, are building their MINI-DOZER® KIT... time together they'll never forget!

*MD196K comes in an unpainted, D-I-Y Kit. Customer to paint and assemble. We do NOT supply paint.

PERFECT PROJECT to bring Dad & Daughter, Father & Son together to spend quality time building a project they both will love!

BUILD your own MD196K MINI-DOZER® KIT!

Our new MD196K MINI-DOZER® KIT is one tough little Crawler/Tractor that'll plow snow, grade soil, pull logs, move gravel, dig a pond, move a year's worth of firewood and... YOU BUILD IT YOURSELF from our KIT!

Best Reasons to choose the MD196K!

- ✓ Smallest Dozer
- ✓ Lowest priced
- ✓ America's hobbyist dozer
- ✓ Outperforms lawn tractors

SIMPLY NOTHING ELSE LIKE IT!

The MD196K-DB44 Dozer Blade allows you to **SAVE MONEY & MAKE MONEY** by doing earth-moving & utility jobs for yourself and others!

With a MD196K-DB44 Dozer Blade & MD196K-BM13 Bucket Mouth "combo" you can tackle many jobs with only one Attachment!

Dump your load "clam-shell" fashion with a minimum of effort!

MINI-DOZER® Power & Utility!

Your new MINI-DOZER® will skid logs, pull equipment out of ditches, tow compact trailers and wagons, mow fields & till gardens with tow behind equipment... landscape lawns... grade and repair driveways... doze snow, gravel, grain... work in tight spots (it'll rotate 360° in its own length)... hop into bed of a mid-size pickup truck... lift loads with optional bucket... move boulders... and many more jobs with many more attachments and accessories.

3rd party "garden attachments" easily connect to the MD196K!

Dual "lift springs" make lifting a 200 lb. load of gravel FUN & EASY!

#K42 PACKAGE

- MD196K
- MD196K-MFH15
- MD196K-DB44
- MD196K-BM13
- MD196K-MRH35
- MD196K-DR30
- TS058

- MINI-DOZER MD196K Kit
- Manual Front Hitch Kit
- Dozer Blade Kit
- Bucket Mouth Kit
- Manual Rear Hitch Kit
- Double Ripper Kit
- Grouser Track Shoe Kit

Easily move and dump 200 lb. loads!

Like every Struck Dozer, the MD196K has TWIN Tracks for incredible ground-grabbing traction. Wheeled vehicles spin in slippery conditions, but tracks GRIP! That gives you unbeatable performance to push or pull "challenging" loads. And the tracks' big surface area gives you excellent "floatation" -- you can cross muddy, mucky, uneven ground without sinking in. In a broad stroke, it'll do everything a premium lawn tractor will do and MUCH more!

BUILD YOUR OWN MINI-DOZER® KIT!

4 BIG REASONS this Kit Dozer is “THE D-I-Y PROJECT OF A LIFETIME!”

Once started, you can't wait to drive your new TWIN Track powerhouse!

- ✓ If you're a hands-on guy who loves building things -- especially KITS -- you'd be hard pressed to find any project as interesting, unusual, or rewarding to build as the MD196K Compact Crawler.
- ✓ When you're done, you'll own a scrappy, genuine MINI-DOZER® that'll work its heart out for you, handling surprisingly tough jobs all around your place for years and years to come.
- ✓ This is a genuine, USA made, Struck® Compact Crawler. We've manufactured and sold our products factory-direct for well over 55 years! This is our D-I-Y KIT Version.
- ✓ Because it's a KIT you get two big advantages you can't get elsewhere. It's the lowest price dozer in its class because you do the assembly yourself. And, as you build it, you can tweak and modify it as you wish. Want to use your own engine? Need a custom tow hitch? Go for it!

Is it Tough to build?... it's **Easy enough** for most and **Highly Rewarding** for all!

If you know the difference between a phillips and a flat screwdriver, you can successfully build this hard-working Dozer. You'll need only basic D-I-Y tools like socket wrenches, allen wrenches, tape measure, etc. If you're an intermediate or advanced D-I-Y guy, you'll still find it plenty engaging. After all, you've never built a genuine Dozer before... have you?

BEGIN YOUR "DREAM PROJECT"...NOW!

Buy your MINI-DOZER® MD196K KIT Assembly Manual TODAY! You'll quickly see we've put together instructional material in extraordinary detail. We're also ready to field any questions you may have and guide you through every step!

[Check "back cover" of this Catalog for complete MD96K KIT Assembly Manual information]

MD196K-DB44 Dozer Blade & MD196K-BM13 Bucket Mouth “combo package” allows you to effortlessly scoop up and transport rocks, stones & soil.

The two plow steel ripper teeth from the MD196K-DR30 Dual Ripper, tear up the roughest material!

Only a genuine MINI-DOZER® has the power and stamina to backfill soil, sand, and gravel, into trenches and foundations.

With your MD196K-LW228 Log Crane & LW16 Manual Winch Kits you can easily lift the “nose” of a heavy log and “pull it away” with the drawbar on your Log Crane assembly.
