

# The #1 Choice for Contractors!

# MAGNATRAC<sup>®</sup> MH8000

## Meet the MUSCLE...

The MAGNATRAC<sup>®</sup> MH8000 is without a doubt the BEST MAGNATRAC<sup>®</sup> for contractors, farm and ranch or those that just want "The Best of the Best!" For over 50 years we have been developing, testing, and producing Compact Crawler Tractors. During that time, we have produced dozens of crawler models, and we have learned something new from every one. More importantly we learned from our customers what makes a successful Struck Compact Crawler Tractor.

### Unbeatable Power at an Unbeatable Price.

The MAGNATRAC<sup>®</sup> MH8000 boasts an unstoppable Vanguard engine to power our time-tested, hydraulic drive train. However, the MH8000 has more to offer than just a superior engine. Incorporated into its design are all the heavy-duty features of its predecessors, and a few new ones as well. Most of all, we have dedicated ourselves to utilizing automated fabrication and robotic welding equipment so building the best is less expensive!

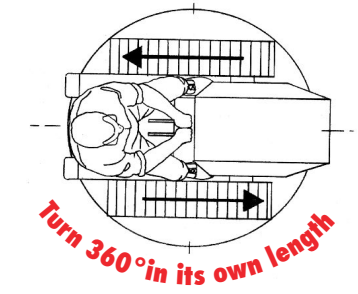

The Briggs and Stratton Commercial Power division with it's introduction of twelve Big Block V-Twin engines, including the industry's first 31 HP air-cooled gas-line engine, **(ENG35 35 hp engine upgrade available)** provides the "muscle" utilized in the MH8000. Not only does it help provide more "workpower" than previous Struck Crawlers, it also boasts full pressure lubrication, cast iron cylinder sleeves, a commercial grade starter, 20 amps of power, and a 5" Donaldson<sup>®</sup> centrifugal multi-stage air cleaner. WOW! That's no lawn mower engine, that's heavy-duty commercial power that's built to last!

### 31 HP SPECIFICATIONS

Displacement:	54.6 cu. in. (895 cc)
Horsepower:	31 HP (gross) @ 3600 RPM
Torque:	48 ft-lbs
Cylinder:	Cast Iron Sleeves
Bearing Type:	Replaceable Steel/Aluminum
Starter:	Solenoid Shift Starter
Crankshaft:	1-1/8" dia.
Air Cleaner:	5" Centrifugal multi-stage
Muffler:	5" round
Alternator:	20 Amp @ 3600 RPM
Lubrication:	Full Pressure
Emissions:	Meets CARB/EPA regulations
Weight:	122 lbs.

### MH8000 814 - PACKAGE

ENG35 HL900 L5	35 hp Upgrade Loader Leveling Gauge	EB460 FB150 TS040	Excavating Bucket Weight Box Grouser Shoes
----------------------	---	-------------------------	--

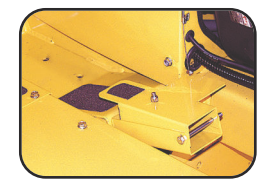

### Easy to Operate!

No clutches and no shifting gears. Hydraulic controls move with finger-tip ease to nimbly maneuver the tractor exactly where you want it, and with its compact size it goes almost anywhere. You can even rotate a Magnatrac a full 360° in its own length!

### Convenient Foot Throttle

The redesigned accelerator pedal on the MH8000 gives unprecedented control over engine and tractor speed. Now you can keep your hands on your controls, your eyes on your work, and still adjust track speed, PTO RPM, and hydraulic flow to attachments!

### Robotically Welded Undercarriage

The MH8000 inherited the backbone of its predecessors; an over 300 pound all-steel undercarriage frame, robotically welded in our custom fixturing. Exemplifying not only good design and strength, but efficiency and consistency.

### Dual Pump Hydraulics

The dual pump hydraulic system provides 23 GPM. Whether you need to operate higher flow attachments (augers, snowblowers, etc...) or just unload fast, you have plenty of flow and power!

**23 GPM**

## What makes the MH8000 Tough Enough For Contractors?

### Powerful Commercial Grade Vanguard<sup>®</sup> Engine

The rugged Vanguard<sup>®</sup> engine is the heart behind the hydraulic drive system of the MH8000. Designed with heavy-duty work in mind, the Vanguard<sup>®</sup> delivers more "work-power" than any other MAGNATRAC<sup>®</sup> we've ever built!

### 814 PACKAGE

### Power-Cooled Hydraulics

The large 190 sq in external radiator boosts cooling capacity with a huge 16 inch 1550 CFM fan to keep your hydraulic oil running cool all day long!

### Multi-stage Air Cleaner

The 5" Donaldson<sup>®</sup> Centrifugal Multi-stage Air Cleaner is one of the best air cleaning systems in the industry. Cleaner air means a clean engine, better fuel efficiency, and longer engine life!

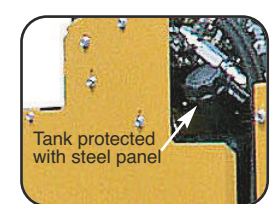

### Dual Halogen Headlights

Two powerful halogen headlights make sure your work doesn't stop just because the sun goes down!

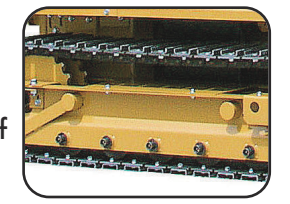

### Long Run Fuel Tank

Nobody likes to stop working before the job is done. Boasting a big 5+ gallon fuel tank and easy to read gauge, uninterrupted earth-moving.

### Heavy-Duty Track Rollers

Track rollers are where dirt meets dozer. They distribute weight and ensure good ground contact. The MH8000 has a total of ten heavy-duty guide rollers (5 per side) cut from 5/8" thick solid steel!

## MH8000 892 - PACKAGE

ENG35	35 hp Upgrade	SB480TS	Speed Excavating Bucket
HL900	Loader	D108	Backhoe (8 ft depth)
L5	Leveling Gauge	B816	16" Backhoe Bucket
SH44	Speed Hitch	HC74	Hydro Circuit

**Heavy-Duty Attachments add Versatility!**

**The MH8000 uses the same hard-working attachments as previous Magnatrac Series Crawlers. No matter what kind of work you need to get done we've got the attachment for you!**

- HL900 Loader
- SWB54 Six-Way Blade
- EB460 Excavating Bucket
- SB480S/TS Speed Buckets
- MDB154/S Angling Blades
- HC74 Hydro Circuit
- D1065 Backhoe
- D108 Backhoe
- LF19 Log Forks
- BR52 Frost / Chisel Ripper
- RH65 Cat. 1 Three Point Hitch
- PTO70 Power Takeoff
- S14 Scarifier / Ripper
- NH3A Remote Auger and many more!

**Plus...**

**Optional upgrades like: Speed Hitch, Hydraulic Circuit, Rear Hitch and PTO allow you to utilize dozens of third-party Skid Steer & Category 1 Three Point Hitch attachments!**

- Snow Blowers
- Pallet Forks
- Grapples
- Brush Mowers
- Breakers
- Stump Grinders
- Chippers
- Trenchers
- Sweepers
- Concrete Mixers
- Earth Augers
- Snow Blades
- Log Winches
- Spreaders
- Tillers
- Tree Spades
- Soil Levelers
- Angle Brooms
- Grapple Rakes
- and many more!
